If we are to have the risk assessment meetings in Anchorage the week of April 11, then we might all want to attend this symposium on the 14th. It is motivated by Bristol Bay issues. If we are to attend then we need to send an RSVP.

This is the question that Palmer asked - Can we arrange the risk assessment meetings, internal and external, around this symposium in Anchorage?

Just a friendly reminder to send an RSVP email to Katrina Mueller at katrina_mueller@fws.gov if you are planning to attend this symposium. If you have already done that, thank you. We are trying to get a head count to see if we are going to need a bigger room. We have reserved a room in the UAA Consortium Library and we also plan to stream this to UA sites in Dillingham, Juneau and Fairbanks. In addition, we are investigating the possibility of video conferencing to USFWS refuge and field offices that are interested. We have not yet found a room for the public presentation on April 13. Another announcement

with additional information will be sent soon to people who RSVP.

In you email note whether you plan to attend in person or if you would like to attend at a remote location.

Information on the symposium will also be posted here: <http://alaska.fws.gov/calendar.htm#EventsMtgs>.
